DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because Figure 2 contains crossed-out markings. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

The abstract is objected to as containing "disclosure". The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc. See MPEP 608.01(b).

The disclosure is objected to because of the following informalities: page 1 contains uneven underlining. Furthermore, there appear to be translational options listed in brackets which appear extraneous to the application; see pages 1, 2, and 7.

Appropriate correction is required.

Allowable Subject Matter

Claims 1-10 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the instant application is deemed to be directed towards unobvious improvement over the invention patented in US 5,319,921, wherein the improvement comprises the use of the noise component of the gas sensor to adjust the limiting frequency of the high pass filter in either a method for noise compensation or in a gas measuring device having a selector unit that determines the limiting frequency of the filter.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
